WEAR, WAIT & WASH - A big Thank You to Topsail Beach's businesses, visitors, and residents. We continue to have a very low COVID-19 infection rate – one resident infection and two employee positive tests in our businesses. All businesses are properly following CDC and Pender County Health Department guidelines to control and stop

future infections.

We do understand the difficulties our businesses have faced in operating; however, all have stepped up to support the wearing of face coverings for employees and customers. The COVID-19 pandemic will continue to challenge each of us until a vaccine is available. We know by working together we can manage this virus, so we all can enjoy our summer, fall, winter, and spring at Topsail Beach. We are grateful for the support given to our businesses.

The proper wearing of face covering in **ALL** activities when social distancing is not possible has shown to be critical in controlling COVID-19 community infection. Again, we say thank you to our Topsail Beach businesses for their active support of the three w's.

Stay Safe.

Regards, Steve Smith, Mayor
Town of Topsail Beach
