

We've been notified today by the Pender County Health Department that there are no more vaccination appointments available for next Tuesday (1/12) or Thursday (1/14). You may still call 910-259-1230 and they will take your name and contact information in the order received and contact you as appointments become available.

The Pender County Health Department has assured us that they will vaccinate everyone (who wants to be vaccinated) in group 1 first, before moving on to group 2. We ask for your patience and understanding as the Health Department works through the vaccination schedule.

The Pender County Health Department is now booking COVID-19 vaccination appointments for Phase 1B-Group 1 (Adults 75 Years or older). We have been informed that appointments for tomorrow in Hampstead are full. According to their website the next available appointments are on Tuesday (1/12/21) in Burgaw and Thursday (1/14/21) at the Hampstead Annex. To schedule an appointment, please call the Health Department at (910) 259-1230. Due to high call volumes, you may have to call multiple times to reach the front desk to make an appointment, so please be patient. Current appointment scheduling information can be found on the Pender County Health Department website by clicking here: <https://www.pendercountync.gov/hhs/health-human-services/health-department/>

IMPORTANT

You cannot receive the COVID-19 vaccine if:

You have tested positive for COVID within the last 30 days

You have received a vaccine of any kind (other than for COVID-19) in the last 14 days

You have pending test results due to an exposure
