

## 2021 Hurricane Season Re-entry Decals

### **Pre-Storm**

Homeowners will receive two (2) re-entry decals for the 2021 hurricane season. Please place the decals on the inside, lower corner of the windshield on the driver's side of the two (2) vehicles most likely to be used to check on your property after a storm event.

Only two (2) decals will be given for a property. For properties that have multiple/co-owners, it will be your responsibility to distribute the decals accordingly.

### **Replacement Decals**

Should you sell or trade in your vehicle, or need the windshield replaced, we ask that you scrape off the original decal and bring in for a replacement. If you do not have the original decal and request a replacement, you will be asked to provide specific documentation for the missing decal before a replacement will be issued. The cost of a replacement decal is \$10.00. Decals **will not** be issued once the Town declares a State of Emergency.

### **Designating an Agent**

Additionally, there is an "Agent Authorization" form should you choose to designate someone to act on your behalf post storm. A designated agent is typically a contractor, real estate agent or family member. You may list up to three (3) individuals that you authorize to check on and make emergency repairs to your property post storm. All Agent Authorization forms must be notarized and submitted to the Police Department by **July 1, 2021**. Agent Authorization forms will not be accepted once the Town declares a State of Emergency. Those you have designated as your agent must have a copy of the form with them to gain entry onto the island once it is permissible. **IMPORTANT:** Previous Agent Authorization forms on file at the Police Department will be discarded and new ones must be submitted for 2021 and annually thereafter.

### **Post Storm**

Once the storm passes, public safety officials and Town staff will begin surveying the town to ensure re-entry for property owners and residents is safe. Once safety concerns are addressed re-entry will be open to long-term residents and property owners displaying a valid decal, as well as their designated agents with a copy of their form. Those owners and long-term residents who do not have a valid decal will be detoured to a designated area where they will be required to provide ownership/residency documentation for a temporary re-entry pass.
